Professional Experience

- Worked as Sr.Software Engineer with **Xoriant Solutions Pvt. Ltd,Bangalore**, since Sept 2020.
- Worked as Sr.Software Engineer with **Zensar Technology,Pune** since April 2018.
- Worked as Test Analyst with **Infosys Ltd, Pune** since June 2016.
- Worked as QA Engineer with **AgreeYa Mobility India Pvt. Ltd, Pune** since June 2013.

Project Details

Project_1:iBASE(Innovative Bot Assisted Software Engineering)

Sept'20 to Sept'22

- **Client: All Xoriant Clients**
- **Project Details:** iBASE is an integrated collection of Bots that spans across each phase of the software development life cycle. It enables continuous code inspection, testing and deployment. Each project has details such as source code repository, branch, set of rules (coding standards) and the frequency for scanning. iBASE acts as a quality gate for the developer and ensures that the developer owns the responsibility of the code which is created.
- **Roles and Responsibilities:**
- Write Selenium and API automation script for the story implemented in current sprint.
- Push the code to the GitLab repository.
- Run the Jenkins Build after merge of the latest code.
- Check and Analyze the results after Jenkins build run.
- **Automation Tools Used:** Selenium WebDriver, Katalon Studio, Cucumber, Extent Report, Rest Assured, TestNg
- **Environment:** Java, SpringBoot

Project_2: GSLO(Global Service Logistics and Operations)

April'18 to Sept'20

- **Client: Cisco Systems, Inc.**
- **Project Details:** Global Service Logistics and Operations (GSLO) vision is to differentiate Service Delivery to enable acceleration of business outcomes for customers and partners. GSLO is part of Technical Services to manage spare parts planning, flow to and back from customers and then repair.
- **Roles and Responsibilities:**
- Write Selenium script for the story implemented in current sprint.
- Push the code to the git repository and create Merge request on Bitbucket.
- Run the Jenkins Build after merge of the latest code.
- Check and Analyze the results after Jenkins build run.
- **Automation Tools Used:** Selenium WebDriver, Katalon Studio, Cucumber, Extent Report, Rest Assured, TestNg
- **Environment:** Pega 8.1 Platform

Project_3: Account Services V2.0(AS2)

July'16 to Feb'18

- **Client: Leading Bank, UK**
- **Project Details:** Project is an online banking system using which registered customer can manage their accounts, do fund transfer, bill payment, corporate payment and different types of business. This project comes under Credit Card Domain. AS2 provides all credit card related services to UK customer for e.g.
 - View/Download the statement
 - Increase/Decrease the credit limit
 - Setup Direct debit
 - Your account summary

- See latest transactions and your statement
- Setup the alert
- **Roles and Responsibilities:**
- Understanding the requirements and writing test scripts.
- Writing test cases from Use Cases and Design Documents provided by the client. Identified automation Scenarios from manual regression test cases.
- Push the code to the git repository and create Merge request on Bitbucket.
- Run the Jenkins Build after merge of the latest code.
- Check and Analyze the results after Jenkins build run.
- **Automation Tools Used:** Selenium WebDriver, Cucumber, Extent Report, Rest Assured, TestNG

Project_4: Toolbox Horizon

Feb'16 to July'16

- **Client:** Boeing
- **Project Details:** An online web application which contains the airplane maintenance document of Boeing Airplane. It is used by Boeing engineers and stakeholders for maintenance purpose of all the airplane manufactured by Boeing company.
- **Roles and Responsibilities:**
- Write Selenium script for the story implemented in current sprint.
- Push the code to the git repository and create Merge request on Git Lab.
- Run the Jenkins Build after merge of the latest code.
- Check and Analyze the results after Jenkins build run.
- **Automation Tools Used:** Selenium WebDriver, Cucumber, Extent Report, TestNG
- **Environment:** JAVA, Microsoft Azure

Key Achievements

- Received time to time appreciation from client, project managers and business analysts for performing well throughout testing life cycle

Technical Skills

Languages and Technologies	Core JAVA
Database	Oracle,MySQL
Operating System	Windows, Linux
Familiar Software	Microsoft Office, Firebug, FirePath , Katalon Studio
Automation Testing Tool	Selenium WebDriver, TestNG, Cucumber, Rest Assured, Extent Report, RESTClient, POSTman
Version-control system	Git , GitLab, Bitbucket
Test Management Tool	Rally, JIRA, Redmine
DevOps Tools	Git/GitHub, Jenkins, CircleCI, AWS- Elastic Beanstalk, S3, EC2

Educational Qualification

- **B.Tech in Computer Science and Engineering** from Gautam Buddh Technical University,INDIA in **2012** securing **70.94%**.
- **H.S.C.** from SVN Inter College (U.P. Education Board, Allahabad) in **2006** securing **71.4%**.
- **S.S.C.** from A.B Singh H/S (Bihar Board, Patna) in **2004** securing **75.0%**.

Assets

- Good analytical skills and ability to quickly grasp new technologies
- Strong believes in team playing
- Skilled at balancing and prioritizing multiple tasks to meet deadlines
- Ability to put my point strongly and convince people while respecting others opinion
- Able to perform well under pressure and with minimum supervision

Interests

- Reading books.
- Watching movies.

Personal Details

Fathers Name : Mr. Harijee Singh
Date of Birth : 22/12/ 1989
Address : QuerstraBe 30,Hannover,30519,Germany
Nationality : Indian
Languages Known : English, Hindi
VISA Details : RESIDENCE PERMIT

I hereby declare that all the above statements are true to the best of my knowledge and belief.

Place: Hannover

Date:
