Server, and Useradministration

Software versioning with Git, and SVN

Continuous Integration

Continuous Delivery

Development of Treasury Applications:

Kondor 2.6 / 3.3

QRM

KVaR

Murex 3.11

DBR

CVAL

My main duties in Kondor are creating

Custom Windows

Open Reports

data mining

creating interfaces for sending and loading data from and to Kondor

and everything else in order to automatic Kondor maintenace fully

QRM:

Specialist division of QRM

In general:

* Besides ALM duties, implementing regulatories like MiFID 2 is a responsibility, too.

* risk management and strategic planning

* Project planning

loading data from and to QRM

create reports in QRM

benchmark outputs

automatize SFM (tool for loading QRM)

write C# and VB scripts in order to automatize QRM

create NII reports

Murex:

create workflows

load data from and to Murex

create Java interfaces

do data check plausibility

Programming languages

C#

Java (Swing)

JavaEE

Android development

Python

Jython

PHP

Visual Basic Scripting

Perl

Shell (csh, ksh, bash, Powershell)

VBA and VB scripting

Database (creating, stored procedures, SQL tuning, database normalization, data mining)

MS SQL Server

Sybase

Oracle

Postgres

MySQL

Frameworks:

JSF

Struts

Hibernate

EJB

Tomcat Server

Weblogic Server

Operating System (Administration, Active Directory, ...)

Windows Server

Solaris Unix

Linux

Applications

Dynatrace Application Monitoring

Software Developer at Thales

Januar 2008 - März 2010 (2 Jahre 3 Monate)

Software developing in Java, PHP, Python, Perl, Visual Basic Script, and Bash.

Software support for Kondor, KGL, KGR, RMDS, and Murex.

VMWare Administration

CISCO Router Administration

Database administration: Sybase, and MySQL

Creating databases, database normalization, writing procedures, data mining, etc

Unix, Linux, and Windows Administration

Software Developer at BAWAG

März 2007 - Dezember 2007 (10 Monate)

Software Developer in Perl, PHP, and Bash

Software administration of Kondor, KGL, KGR

Database administration: Sybase

Dispatching

Unix and Windows Administration

Software Developer

Juli 2006 - Februar 2007 (8 Monate)

Software developer in Python, Bash, and Perl

Treasury administration: Kondor, KGL, KGR, and ORC

Unix Administration

Software Developer at NextiraOne Europe

Januar 2006 - Juni 2006 (6 Monate)

Software Developer in PHP, Perl, and Bash

Software administration for NewVoice

Database administration: MySQL

Software Developer

Februar 2004 - Juni 2005 (1 Jahr 5 Monate)

Software Developer in Perl, and Bash

Linux and Windows Administration

Database Administration: MySQL

User Support Specialist

Februar 2001 - Mai 2003 (2 Jahre 4 Monate)

User Support in Windows, MacOS, and Linux

Education

Polytechnic

Informatik - Software Engineering, 2003 - 2006

Secondary School

1991 - 2000

Honors and Awards

Sybase, MCSA, LPIC, ITIL v2, CCENT, PRINCE2, MS SQL Programming, Cambridge Business English Certificate, Developing Applications with Java EE 6 on WebLogic Server 12c, MS Exchange Server, Linux Administration, MCSE Administration, C Programming, Java Enterprise Edition-kompatible Anwendungen entwickeln, Dynatrace Application Monitoring
