## SKILLS

C

C++

Python

Java

HTML5

CSS3

JavaScript

TypeScript

Angular

Angular Material

git

## PERSONAL PROJECTS

### Crop yield prediction using machine learning (11/2020 - 07/2021)

- This project focuses on predicting the yield of crop by applying various machine learning techniques.
- The Outcome of these techniques is compared on the basis of mean absolute error.
- The Prediction made by machine learning algorithms will help the farmer to decide which crop to grow to get the maximum yield by considering factors like temperature, rainfall, area, etc.
- In this project we use python technology

## CERTIFICATES

Frontend training certification of microsoft foundation under Nirman Organization.  
(04/2022 - 06/2022)

Certified in successful completing the Oracle academy database programming with sql

Certified in successful completing the Oracle academy java fundamentals

Certificate of participation in AWESOME DAY online conference held by Amazon Web Service

## LANGUAGES

Telugu  
Native or Bilingual Proficiency

English  
Full Professional Proficiency
