Mobile No: +91-8050738442

Objective:

Looking forward for a challenging work profile in Software Development field. My key interests are working on new cutting-edge technologies, learning new tools, working on new innovative design frameworks and making the overall Software Development process optimized and efficient one.

Summary:

- Having around 3 years of work experience in IT sector.
- Having around 2.5 years of relevant experience in application development using Front-end technologies.
- Good working Knowledge on **Html5, CSS3, JavaScript, Bootstrap**, and **Angular5,7,11,12**.
- Good Knowledge on Dependency injection and two-way data binding.
- Used Http services & pagination.
- Good amount of work done on Reactive forms.
- Single page application development as using angular Routes.
- Created custom directives & custom pipes for re-usable components.

Experience Details:

- Working with **Cognizant Technology Solution** Since July 2021 to May 2022.
- Worked with **Vortex technologies limited** Since December 2019 to July 2021

Educational Qualification:

- Bachelor of Technology from JNTUK, A.P. in 2018.
