Project Summary

Project #1 : CCLP- Client Communication Platform

Client : BMG, Germany

Role : Software Engineer

Team Size : 6

Duration : 2020 SEPTEMBER – 2021 FEBURARY

Project Description:

CCLP- Client Communication platform, It is an interaction tool between the BMG and it's users. BMG- has clients from different countries like UK-English ,US- English ,DUTCH and Germany .We have developed it for sending templates to the artist regarding their royalty earned by using their music. These templates can be sent in 4 languages. All the messages can be seen with message history along with the number of recipients, mail id and language of the template.

Responsibilities:

- Worked on developing **front-end** for the application.
- Worked on enabling an Automated **Email** Communication to send the selected template based on User's preferred language.
- Worked on web application testing manually. Documentation of the same test cases for future reference.

Project #2 : CC - ContractsCore

Client : BMG ,Germany

Role : Software Engineer

Team Size : 8

Duration : 2021 MARCH – 2021 DECEMBER.

Project Description:

CC-ContractsCore is a web application, this is also one of the BMG client project. Here we will

have number of users from different countries, it is an agreement between artist and BMG. Here they can post the songs, and discuss , export the data.

Responsibilities:

- Worked on developing **front-end** for the application.
- Worked on **Web application testing** for **CC**. Documentation of the same test cases for future reference.
- Also worked on resolving other's support tickets for **Web application testing** during critical phases.

Project #3 : BMG - Release :

Client : BMG ,Germany

Role : Software Engineer

Team Size : 6

Duration : 2022 JANUARY – 2022 SEPTEMBER.

Project Description:

Bmg-Release is a Web application which manages the bmg music company's products releases(release dates , prices,etc). It is like a bridge between bmg capture application, which creates the bmg music products and bmg partners. Application which distributes the products to its distributors.

Responsibilities:

- Worked on developing **front-end** for the application.
- Worked on **Web application testing** for **Bmg-Release**. Documentation of the same test cases for future reference.
- Also worked on resolving other's support tickets for **Web application testing** during critical phases.

Certification

- Successfully completed "**Build Your Own Static Website**" Course offered by **NXT WAVE** which covers knowledge on HTML, CSS, SCSS and Bootstrap.
