PROJECTS / OPEN-SOURCE

Campus Life Website | Link *HTML, CSS, Javascript, Express.js, Node.js, MongoDB, Mongoose, NoSQL, Heroku*

With this project I attempted to replicate a college events portal where students can post and register for events. This is a Fullstack site.

Exercise Tracking Application | Link *Python, Nutritionix and Sheety APIs*

With this project I was aiming to automatically translate user input using Nutritionix API NLP and predict calories burnt

Food Detection Application | Link *Python, Nutritionix, LogMeal and Sheety APIs*

With this project I was aiming to build a food detection application using multiple APIs. Detects food and updates and excel sheet

Stocks SMS Alert Applciation | Link *Python, Twillio and Alpha-Vantage API*

Aim of this project was to detect changes in the stock price of any company in the market and alert the user via a SMS of the change along with a news article that elaborates on the issue.

Quiz Application | Link *Python, Open Trivia API*

Made a quiz application using Tkinter and Open Trivia API

College Club Website | Link *HTML, CSS, SCSS, Javascript*

With this project I was aiming to make a responsive and modern front end website for a college club.
