## PROFESSIONAL EXPERIENCE

**VIPL, Delhi - Oct 2021 to Present**

### Project 1: Auto Accessory Configurator

**Client** : DPS Dealers

**Responsibilities** : Project Coordinator and Software Developer.

**Technology** : Laravel, MySql, Xampp, JQuery, Ajax, JavaScript, Html5, Css3.

**Team Size** : 5

**Project Period** : Start and End Date(OCT 2020 to till date).

**Key Responsibilities** : Functionality Design, the database table structure and using JQuery, Ajax, JavaScript.

**Description:** I solely developed a presentation tool that empowers the sales effort with a single interface. That is accessible by salesperson, finance manager, service coordinator, dealer, and vendor. Also, it helps customers to get the accessory offerings.

### **Synapse Connecting Solution, Indore - June 2017 to June 2021**

#### **Project 2: Money Turn Hybrid App- REST API**

**Client** : Money Turn

**Responsibilities** : Project Coordinator and Software Developer.

**Technology** : Core PHP, MySql, Xampp, JQuery, Ajax, JavaScript, Html5, Css3.

**Team Size** : 5

**Project Period** : Start and End Date (June 2019 to June 2021).

**Key Responsibilities** : Create Rest API, Create Cron and manage Database

**Description:** I have worked on an app which is based on saving money with fewer restrictions with people you are familiar with and getting the money when you want. This eliminates the need for short-term saving products. Featuring crowdfunding like BC for groups and money transfer.

#### **Project 3: Caterpillar Kids**

**Client** : Caterpillar Kids

**Responsibilities** : Software Developer.

**Technology** : Laravel, MySql, Xampp, JQuery, Ajax, JavaScript, Html5, Css3.

**Team Size** : 4

**Project Period** : Start and End Date (June 2018 to June 2019).

**Key Responsibilities** : Create Rest API, Create Cron and manage Database.

**Description:** I have worked on a website to manage after school patterns where the admin can manage the whole school management and also parents and teachers are able to view the annual performance of

students.

#### **Project 4: Company Clip 2.0**

|                                   |  |
|-----------------------------------|--|
| <b>Client</b>                     | <b>: Company Clip</b>  |
| <b>Responsibilities</b>           | <b>: Software Developer.</b>   |
| <b>Technology</b><br><b>Css3.</b> | <b>: PHP, CodeIgniter , MySql, Xampp, JQuery, Ajax, JavaScript, Html5,</b> |
| <b>Team Size</b>                  | <b>: 5</b>   |
| <b>Project Period</b>             | <b>: Start and End Date (Dec 2017 to June 2018).</b>                       |
| <b>Key Responsibilities</b>       | <b>: Functionality Design and database table structure.</b>                |

**Description:** I have worked on a reworking system that delivers Disney content to guests across the entire spectrum of Disney properties. Developed a web portal that allows the company clips partners to submit content and apply a start, end date to each individual item to remove the monthly deadlines. The system also keeps track of the usage of content across the entire company clips network.

**Technology:** PHP, CodeIgniter, MySQL, JavaScript, IBM, Aspera.

#### **Project 5: Form Generator**

|                             |   |
|-----------------------------|---|
| <b>Client</b>               | <b>: Form Generator</b>   |
| <b>Responsibilities</b>     | <b>: Software Developer.</b>  |
| <b>Technology</b>           | <b>: PHP, Laravel, MySql, Xampp, JQuery, Ajax, JavaScript, Html5, Css3.</b> |
| <b>Team Size</b>            | <b>: 5</b>  |
| <b>Project Period</b>       | <b>: Start and End Date (June 2017 to Nov 2017).</b>                        |
| <b>Key Responsibilities</b> | <b>: Functionality Design and database table structure.</b>                 |

**Description:** A complete website to create the warranty of sales tool which can also change the existing warranty. There are various users who have different roles to handle the warranty.
