### SUMMARY:

Having around 3 years of experience in Developing Applications using **Python, Django, JavaScript, HTML, CSS and JQuery** technology in different areas,

- o Experience in using Automate scripts using Python.
- o Experience in **web scraping** using Python.
- o Created Forms, views, models using **Django**.
- o Experienced in Object Oriented Programming Methodology (**OOPs**) in Python.
- o Developed web pages using Front-end technologies like **HTML5, CSS, JavaScript**.
- o Developed Merge in Python to extract and load data into **MySQL** databases.
- o Designed and developed database management system using **MySQL**.
- o Expertise in **Django framework** to build multi-page Applications.
- o Experience in **Django Rest Framework (DRF)** to build forrest api's
- o Experience AWS services in **AWS Lambda , S3 , Cloud Watch, Api GateWay and Rds**
- o Experience with version control systems Like **Git** and **Git-Hub** to maintain source Code Versions.
- o Knowledge in CI/CD Jenkins integration and deployment.

### TECHNICAL SKILLS:

<b>Programming Languages</b>	: Python
<b>Web Scripting</b>	: HTML, CSS, Java Script
<b>Web Frame Work</b>	: Django, Django Rest FrameWork , Fast Api
<b>Databases</b>	: Postgresql, My SQL, SQLite 3
<b>Operating Systems</b>	: Windows10
<b>Tools</b>	: GitHub, Aws Services(Lambda, Api GateWay,S3, Cloud Watch, Rds)

### WORK EXPERIENCE:

<b>Client</b>	: ERGON INNOVATION.
<b>Location</b>	: Hyderabad, Telangana.
<b>Duration</b>	: DEC 2019- March 2021
<b>Role</b>	: Python Developer

#### **Project : Ksheer Dham Milk Dairy Products(MDM)**

##### **Roles & Responsibilities:**

- o Developed views and templates with Django view controller and template language to create a user friendly website interface.
- o Implemented Admin interface guidelines and standards throughout the development.
- o Maintenance of the website using HTML, CSS, JavaScript and JQuery.
- o Used Git Software version control to allow simultaneous **development** and **deployment**.

**Client** : FININFOCOM.  
**Location** : Hyderabad, Telangana.  
**Duration** : April 2021-Present  
**Role** : Python Developer

**Project : Mobile Device Management(MDM)**

**Roles & Responsibilities:**

- Developed views and templates with Django view controller and template language to create a user friendly website interface.
- Implemented Admin interface guidelines and standards throughout the development.
- Maintenance of the website using HTML, CSS, JavaScript and JQuery.
- Created APIS, database model and views utilization python in order to build responsive web page applications.
- Implemented user interface guidelines and standards throughout the development and maintenance of the website using HTML5, CSS3, and JavaScript.
- Developed views and templates with Python and Django view controllers and templating language to create a user-friendly website interface.
- Used JavaScript, CSS3 and JQuery to display the data in front end.
- Developed views and templates in Django to create a user-friendly website interface.
- Used Git Software version control to allow simultaneous **development** and **deployment**.

**Project : Gafter Go!**

**Roles & Responsibilities:**

- Created APIS, using raw queries .
- This Project completely using Aws lambda api's, and mysql database
- This Project was using some third party libraries
- payment for stripe payments , otp for message bird , push notifications for firebase and sending mail for smtp grid .

**ACADEMIC PROJECTS:**

**Main Project**

**Multi Traffic Scene Perception Based on SuperVised Learning.**

**Description:**

In our Project the main objective is to detect weather conditions and reduce traffic accidents. more traffic accidents are during monsoon and winter times. This project identifies weather conditions.

**Responsibilities:**

Reduce Traffic Accidents in different seasons.

**EDUCATION:**

Bachelor of Computer Science (Under Graduation) from Mahatma Gandhi University at Nalgonda.

**TRAINING & CERTIFICATIONS:**

- I have completed certification in Python, Django, Html, CSS and JavaScript from Datatechs institute at Hyderabad, Telangana.

I hereby conclude that the information given above is true to the best of my knowledge.
